Fig. 1. This panel is the tenth placed by the Museum. It was funded by the Capen Hose Co. No.4 and installed September 2018. There was no formal dedication.

Fig. 2. Location: East side of Main Street at Capen Hose Co. No.4.

Fig. 3. View: You are facing east. The Capen Hose Co. No.4 building is in the background.

Fig. 4. The hydrant during modification. Once installed, the adapter plate rests on the black flange immediately below the parts in red.

Fig. 5. Top view showing the hydrant cap and rectangular adapter plate installed.

ABOUT THE HYDRANT AND ADAPTER

This hydrant, manufactured by Chapman Valve of Boston, Massachusetts, was in use at the Duffy-Mott company in Hamlin, NY until the early 1980s [estimated]. It was donated by David Moore. The adapter plate that holds the panel was fabricated by John F. Rombaut.

More information about Chapman hydrants can be found online.
