About the panel

The panel being dedicated today celebrates the 40th anniversary of the fifth International Special Olympics held at The College at Brockport in 1979. Dr. Joseph Winnick was a driving force behind this effort, which brought 3,500 athletes from 29 countries to compete on this campus. With 3,000 volunteers on hand to welcome and encourage these athletes the Games brought out the best in the college and community while serving as an important step in creating a more inclusive culture.
